SUMMARY

A versatile professional and passionate Full Stack JavaScript developer with expertise in modern web technologies like React, Node.js, and PostgreSQL. I bring a unique blend of analytical skills from my experience as a Strategy Analyst and technical proficiency from completing an immersive Full Stack JavaScript program at Hacktiv8 Jakarta.

While my primary focus is on building impactful software solutions, I am equally open to exploring opportunities in other fields where I can leverage my diverse skill set, adaptability, and problem-solving capabilities to drive meaningful results.

EDUCATION

| | |
|---|--|
| Hacktiv8 Full Stack JavaScript Immersive Program (Transcript) | Jakarta, Indonesia August 2024 – December 2024 |
|---|--|

| | |
|--|--|
| President University Bachelor of Business Administration (GPA 3.57/4.00) | Jakarta, Indonesia 2018 - 2022 |
|--|--|

WORK EXPERIENCE

| | |
|--|--|
| PT Prospect Motor Strategy Analyst | Cikarang, Indonesia July 2022 – May 2024 |
|--|--|

- Performed comprehensive dealership audits across South Sulawesi, South-East Sulawesi, Papua, Maluku, and West Kalimantan to evaluate and enforce Honda's automotive sales strategy, ensuring alignment with retail objectives and sales targets. Led cross-regional communication and collaboration across 14 dealerships, auditing performance to drive operational improvements, enhance efficiency, and consistently meet or exceed sales goals.
- Analyzed automotive market conditions, including competitor movements and pricing strategies, to evaluate and enhance Honda's market competitiveness.
- Conducted pricing analysis and delivered actionable insights to support strategic planning and business development.
- Applied the PDCA cycle to monitor plan execution, review outcomes, and develop next-step strategies, ensuring continuous improvement and strategic alignment.

| | |
|--|--|
| PT SGWM Motor Indonesia Human Resources Intern | Cikarang, Indonesia March 2022 – June 2022 |
|--|--|

- Designed and developed training programs, materials, and evaluations to enhance employee performance.
- Collaborated on creating HR competency dictionaries using Korn Ferry methodologies, aligning with industry standards.
- Gained hands-on experience in project coordination and HR operations, contributing to organizational development.

| | |
|---|---|
| JW Marriott Hotel Jakarta Human Resources Training Development Intern | Jakarta, Indonesia July 2021 – January 2022 |
|---|---|

- Facilitated end-to-end recruitment processes and managed trainee records to ensure efficient HR operations.
- Coordinated training programs and managed attendance, supporting workforce development
- Strengthened organizational and communication skills while gaining comprehensive insights into HR functions.

SKILLS

Programming Language: JavaScript, Typescript

Front End: React JS, React Native, Next JS, HTML & CSS, Tailwind CSS, Apollo Client

Back End: Node JS, Express, Next JS, Sequelize, MongoDB, PostgreSQL, GraphQL, Apollo Server, Redis, Rest API, Postman

Languages:

- **English:** Fluent in both spoken and written English, capable of effectively communicating in business contexts. Able to clearly convey ideas and collaborate with international teams, with a strong ability to adapt language for different audiences.
- **Indonesian:** Native fluency, allowing seamless communication with local teams and clients across Indonesia.

PROJECTS

MediLoop

December 2024

MediLoop is a health platform that offers personalized medical and wellness recommendations. Users can securely log in to input symptoms, or upload using Multer, while Google Lens ensures accurate product identification. Powered by OpenAI, MediLoop provides symptom diagnosis, over-the-counter medication suggestions, and lifestyle recommendations for hair care, supplements, and more. Combining advanced technology with user-focused solutions, MediLoop supports recovery and overall well-being.

Tech stack: Next.js, Typescript, RAG, Tailwind, Motion, Vector Search, MongoDB, Multer, Cloudinary, openAI, openAI-Vision, Vercel

Ivory Ella

November 2024

A web based e-commerce inspired clothing line called Ivory-Ella. (Ivory-Ella Clone)

Tech stack: Next.js, Typescript, Tailwind, DaisyUI, mongoDB, Vercel

HackGram

November 2024

A mobile and web based application to display restaurant menu

Tech stack: React Native, Expo, Apollo Client, Apollo Server, MongoDB, GraphQL, AWS, Redis

RPS Battle Card

November 2024

A Pokémon-themed rock-paper-scissors game built with ReactJS and Tailwind CSS, featuring real-time multiplayer via Socket.IO, an Express.js backend with PostgreSQL, and secure hosting through AWS and Firebase.

Tech stack: ReactJS, Express JS, PostgreSQL, Socket IO, Sequelize, AWS, Firebase, Tailwind CSS

AI-Interior Design

October 2024

An interior design platform that transforms vacant room images into personalized designs using user prompts. Built with ReactJS, Redux, and Tailwind CSS, it integrates Google OAuth for login, Multer and Cloudinary for image uploads, and Replicate AI for generating designs. Powered by an Express.js backend with PostgreSQL, it leverages AWS, Vercel, and Framer Motion for seamless performance and interactivity.

Tech stack: ReactJS, Express JS, Redux, PostgreSQL, Replicate AI, Google OAuth, Sequelize, Axios, AWS, Vercel, Tailwind CSS, Cloudinary, Multer, framer-motion

Super Vakir

October 2024

An online course platform where users can browse and enroll in courses(CRUD based). Built with Node.js, Express, and EJS, it features a responsive interface styled with Tailwind CSS. Sequelize manages data, and Nodemailer handles enrollment notifications, ensuring a smooth learning experience.

Tech stack: Node JS, Express, EJS, Sequelize, JavaScript, Tailwind CSS, nodemailer

Burger Bader

September 2024

A web app for displaying restaurant menus with a built-in cart, offering smooth CRUD operations and dynamic interactivity using JavaScript DOM. Easily add, update, or remove items for a seamless experience.

Tech stack: HTML & CSS, JavaScript

LEADERSHIPS & ACTIVITIES

AIESEC in President University

Cikarang, Indonesia

International Relation Staff of Incoming Global Volunteer

April 2019 – March 2020

- Promoted AIESEC's volunteering products to local committees globally, increasing awareness and engagement.
- Executed both B2C and B2B sales strategies to drive participation in AIESEC's volunteering programs.
- Marketed the volunteering opportunities within AIESEC's global network, targeting potential volunteers.
- Engaged directly with future exchange participants, organizing and conducting interviews via Skype or WhatsApp Video Call.
- Led "Incoming Preparation Seminars" to provide cultural orientation and necessary preparation tools for volunteer candidates prior to their arrival in Indonesia.

Morning Sunshine 4.0 of AIESEC in President University

Cikarang, Indonesia

Supportive Organizing Committee

July 2019 – August 2019

- Developed and managed the project's budget plan, ensuring efficient allocation of resources.
- Sourced and coordinated global volunteer hosts, facilitating smooth international collaboration.
- Oversaw meal planning and ordering for both volunteers and committee members, ensuring timely and suitable provisions.
- Prepared necessary materials and logistics to support the project's successful execution.

Local Conference of AIESEC in President University

West Java, Indonesia

Conference Committee Vice President of Supportive Division

October 2019 – November 2020

- Developed and managed the conference budget, ensuring all expenses were accounted for and aligned with financial goals.
- Sourced, negotiated, and finalized deals for villa accommodations, transportation (buses), and catering services for participants.
- Coordinated the preparation of on-site materials, ensuring all logistical aspects were ready for a smooth conference experience.
